STUDENT LIFE

PUBLISHED WEEKLY BY STUDENTS OF UTAH AGRICULTURAL COLLEGE

VOLUME VIII.

LOGAN, UTAH, FRIDAY, JANUARY 7, 1910.

NUMBER 14.

U. A. C. Alumni Ball

MONDAY, JANUARY 10, FROM 8:30 TO 11:30. THE LOGAN PAVILION
TICKETS 75 CENTS REFRESHMENTS

FIRST COLLEGE BALL OF THE NEW YEAR

SECOND ANNUAL ALUMNI DANCE.

The U. A. C. Alumni Association extends to every student, to every faculty member, and to every friend of the College, a most cordial invitation to be present at the second annual Alumni Ball in the Pavilion. Dancing will begin promptly at 8:30, and will continue until 11:30. There will be unique decorations and plenty of easy chairs and couches for the weary. There will also be "dainty refreshments." This will be the first dance in 1910, the students are all eager to meet each other socially once more, and the rush for partners will doubtless be great. Act accordingly. Take time by the forelock!

Last year's Alumni Ball was a huge success. We all have pleasant memories of the jolly, jostling crowd, the wealth of decorations, the stirring music. Every precaution has been taken to make this year's ball eclipse that of last year. "Come one, come all!"

WELCOME

TO ALL NEW COMERS

We are happy to have the privilege of extending the freedom of our college to all those who come to us for the first time and of rejoicing over the return of those who have come back after long absence. Men who enter school late in life usually deny themselves little pleasures for the sake of pegging away at books and lecture notes; but they occasionally isolate themselves because they think young students do not want their company. Now we want to

assure all newcomers that we receive them in hearty good fellowship and throw wide open to them the doors of our society.

We invite them to attend our parties, to write articles for Student Life, and to take part in any of the school activities which may interest them. Especially do we recommend to them basket ball and debating—excellent fields for the exercise of supple muscles and good lungs in the one case, and of keen wits and good speaking ability in the other. We know they have much that is precious to give us from the richness of their experience, and we think we have some thing of value to give in return; therefore let us get acquainted forthwith.

Again, we bid them welcome!

"MR. BOB"

HIGH SCHOOL STUDENTS WILL PRESENT PLAY ON WEDNESDAY, JAN. 12

After fully two months' strenuous work the High School students are just about ready to present the very humorous farce "Mr. Bob." It will be given in Richmond to-night and in the Logan opera house next Wednesday night. Of course, every student and person connected with the college will attend the latter performance. Student Body tickets are good on this occasion.

Miss Stewart who has had the coaching of the students and all

the members of the cast, have worked very hard and zealously, rehearsing early and late, especially late,—and the little farce promises to repay their efforts in full. It is certain to delight a student audience, especially if they grasp the situation.

As the plot is decidedly complete a brief synopsis is here given: Miss Luke, a spinster aunt, planning to establish a home for destitute cats, has visiting with her a nephew, Philip, and a niece, Katherine. Philip worships his fair cousin and is very unhappy when she tells him that a friend of hers, Bob by name, is coming to visit her. "Bob" is merely her pet name for Marion Bryant, but Philip expects a "Mr." Bob and mistakes Brown for this same friend. This Brown, who is a poor lawyer's clerk, is mistaken in turn for three different persons and only near the end is able to explain who he really is. Such a complicated series of mistaken identity is naturally full of laughable situations. In fact the farce is a whirl of action and mirth from beginning to end.

DR. BALL'S TRIP EAST

UTAH AROUSES INTEREST OF EASTERNERS

Dr. E. D. Ball, Director of the Utah Experiment Station, returned recently from an extended trip east, where, by attending several large meetings, he acquainted himself with the very latest experimental practices, and as a result of this, Utah will be bettered agriculturally. An interview with Dr. Ball was obtained and the most important features of his trip are herein related:

He first attended the National Horticultural Congress held at Omaha and there he read a paper on the Codling Moth and the best methods of spraying for its destruction. The scientific facts therein presented have since received much favorable comment. The most striking feature of the National Apple Show was Iowa's excellent exhibit of boxed apples. This was indeed worthy of comment and it demonstrates that the states east of us are fast adopting western methods of packing and spraying fruit.

At Chicago, Dr. Ball lectured each day before the United States Land and Irrigation Exposition on "Utah and Her Resources." Such lectures were revelations to the ten to fifteen thousand people who attended the exposition daily. They immediately showed interest and began to ask questions and after looking at the Utah exhibit which was the most diversified and most tastefully arranged exhibit on the grounds, their wonder grew. The showing Utah made did an immense amount of good in that it educated the people of the East to the possibilities of the West, especially to those of the Beehive State. The most striking part of our exhibit was the apple display. "Utah apples with clear skin and

Student Body Tickets Good.
Reserved Seats 15c

deep coor were kept highly polished and the throngs of visitors would constantly gaze at them in wonder and admiration. Many Utah people present were surprised at the remarkable improvement that has been made in the grade and packing of Utah apples in the last two years. The most surprising thing to those in charge of the exhibit, however, was the fact that out of sixty boxes shown, not a single wormy apple was found. To the housewives the exhibit of potatoes and cabbages was almost equally attractive and the constant inquiry was, "How can we get such vegetables?" The same was asked with reference to canned goods and condensed milk on exhibition.

Here indeed is an opening for anyone who is so disposed. Ship "choice" canned goods east and compete with the eastern prices. It can be done for "choice" Utah products far outclass those of many other states, as was well demonstrated by the exhibit at Chicago. One man even went so far as to say that he alone could handle ten car loads of Utah asparagus. That is sufficient in itself to cite many possibilities.

While in Chicago, Dr. Ball also visited the International Livestock Exposition, and to him the most gratifying feature of this exposition was, of course, the fact that Senator Seely of Mt. Pleasant, Representative Hansen of Collinston, W. D. Candland of Mt. Pleasant and J. R. Allen of Draper were buying the very pick of the wonderful exhibits of horses and cattle. These will be brought to Utah.

Then Dr. Ball returned to Omaha where he attended the National Corn Exposition which was much more than the name implies. It was a general exposition of agricultural products of the different states, as well as one of their educational features. A number of the Experiment Stations of the surrounding states

had exhibitions of their work and results of their leading experiments. More than this, demonstrations in cooking and sewing were given daily. "Taken as a whole, the exposition was the most tasteful and educational America has ever seen. Its principal object was to encourage the breeding and production of corn and as such it did an immense good. It served also an educational purpose, in that it dealt with all lines of advanced agriculture. Utah, should, if possible, arrange to be represented, at least in a small way, at the next session of the Corn Exposition. There was, further, a program in which many noted men took part. Dr. Hopkins of the University of Illinois gave a masterful discussion of the problems of soil fertility at one joint session, while all the different societies in session at Omaha united to hear an address by President James J. Hill in which he gave a clear-cut survey of the possibilities of American agriculture.

A meeting of the American Breeders' Association was next in order. This brought together a large number of plant and animal breeders of America. A paper by President Waters of Kansas, on the "Effect of Nutrition on the Form of the Animal," which gave a summary of many years of experimental work at Missouri, was especially noteworthy. Dr. Shull read a paper on corn breeding in which he showed the possibility of increasing the yield of corn fifteen to eighteen per cent by certain breeding methods. His paper was a most valuable contribution to science. The association decided to issue a monthly magazine which will be the official organ of the society and which will deal with the late developments in plant and animal breeding. This magazine will aid largely in increasing the membership of the Breeders' Association, as no one who is interested in the production of better plants and animals

can afford to be without such a publication.

Dr. Ball feels confident that through the advertising which Utah has recently received and because of the vast acreage of unclaimed land which she still maintains, it will not be more than five years before many sections of Utah will experience what Twin Falls, Idaho, has experienced in the past three years—a rising from the desert to a city of eight thousand inhabitants. State Reclamation projects and the like will do wonders for Utah in the next few years. People east of us are inquisitive about Utah and are anxious to settle in the Beehive state where they know, through demonstration, that success, especially along agricultural lines, is a certainty.—Deseret Farmer.

AG. DEPARTMENT NOTES

Bulletin No. 106 is now ready for distribution. It is by Dr. Stewart and Prof. Greaves and is a study of the production and movement of nitric nitrogen in an irrigated soil.

The college herd of Guernseys were purchased by Warden Pratt for the State Penitentiary. They were recently shipped and are now at their new home.

A large attendance is expected at the Farmers Round-Up.

The chemical department is now conducting experiments on the baking qualities of flour.

The college extension department is holding an institute in Monroe, Profs. Caine III and Hogenson left the early part of the week to be in attendance.

Next week the department goes to Ephraim where an institute will be conducted in connection with the Snow Academy.

Prof. Arnold talked before the Agricultural Club at their regular meeting on Wednesday.

MILITARY

The latest consignment of uniforms has arrived. Now there are three full companies of men in uniforms.

The uniform is slightly changed, having a black stripe for privates, a half inch stripe for non-commissioned officers and the regular uniform for commissioned officers. The uniforms are durable and much less conspicuous than formerly.

The battalion is working hard in preparation for the military ball which will be held the last of February.

Preparations are being made to hold an indoor rifle contest between the companies and as many men of the rifle team have entered there will undoubtedly be an interesting meet.

A full military band is organized and under the able direction of Mr. S. E. Clark producing first class music.

The Battalion officers are—

Extract From a Letter

While on my vacation I had quite a rare experience in its way. I was stopping at a small resort, in the state of — which has a world wide reputation; one day, while taking a walk out a short distance from the resort, in company with a party of ladies and gentlemen, it became very warm, and the gentlemen, five in number, including myself, took off our coats, and as one of them threw his coat on his arm, I noticed a Hart Schaffner & Marx label. I made an investigation, and found that four of the five men had H. S. & M. suits on. This would not have been very much out of the ordinary, but for the fact that the men were all from different states, and had never seen each other before. I mentioned my observation to them, and they all agreed that H. S. & M. Clothes are the best to buy, and I am sure that the friend of the party who did not have this label on his suit will

VOL. VIII. No. 14
Friday, January 7, 1910.

The year just past has been crowded with happy events for the U. A. C. Great as some of these events were no one was welcomed with greater joy by the college people than the street car. Students returning after the holidays were happily surprised to find the car in operation. The car is now making its regular trip from the college to the depot and is enjoying heavy patronage. Each morning the car, on its many trips to the college is filled with students and faculty members and in the afternoon it carries hundreds down town. With such patronage now when walking is so good it is likely that during the stormy spring months the car will be filled to the limit.

The street car is an epoch in the life of the college. It was put here for our use; in fact if it had not been for the college Logan would probably have waited many years for a car line. The people of the city are going to be in closer touch with us, and we shall have many more visitors. Parties, lectures, athletic contests and all college entertainments will receive a more liberal patronage than before. People living in the lower part of town can attend school here as well as those nearby. Another thing which all boarders will appreciate is that distance from the college is no longer a consideration when securing a boarding place. The part of town west of Main street is supplied with a large number of very desirable boarding houses that have heretofore been beyond our reach. Now the student living down town will derive the benefit of the city as well as getting to school easily. In advertising the college, mention of the fact that Logan has a splendid car line will

surely induce many students to cast their lot among us.

It was a pleasure indeed to step from the "Cache Valley Limited" onto the "Car." The construction work on the car line has been watched with great interest by the students and faculty members alike, and now that the car is running every one is showing their appreciation by riding. We are very grateful to those who made this convenience possible. We hope to be able to publish a schedule in our next issue.

A TOUCH-DOWN.

Good Farmer Wayback sent his son to college for a year. The boy came home Thanksgiving-time, but father didn't hear. A single word that made him think his son was growing wise; He greatly doubted if in life he'd win the highest prize. He kept on doubting till the boy let forth his college yell. Stamping all the live stock in the neighborhood, pell mell! And every one was startled when the youth with loud huzza. Exclaimed, "Oh, bosh! Some Slosh! Hog wash! Ham Fat! Ding dat! Rah- Rah-

'Tis mother wit that saves a man, and that good farmer knew. In moments of emergency the proper thing to do; He caught that young man un-awares, and bent him o'er his knee. He didn't do a thing to him! Well say- 'tween you and me, He worked the centre rush, and scored a touch down every time. The while the yell spread o'er the farm like a remorseless rhyme. And as he beat a fierce tattoo that grand old Roman Pa. Exclaimed, "Oh, bosh! Some Slosh! Hog wash! Ham Fat! Ding dat! Rah! Rah!"

Chas. Fleming, Dave Farrell and E. G. Peterson visited New York and New England Colleges Christmas Holidays.

"Where is your nose bag?" asked a ranger of a professor as he stood in the bread line in the cafeteria and watched the instructor help himself to gingerbread without a plate and begin munching it unctuously.

INTERCOLLEGIATE BASKETBALL SCHEDULE

The intercollegiate basketball schedule as adopted by the Utah Intercollegiate association is:

- Jan. 14—B. Y. C. vs. B. Y. U. at Logan.
 Jan. 15—A. C. U. vs. B. Y. U. at Logan.
 Jan. 15—L. D. S. vs. U. of U. at Salt Lake.
 Jan. 20—B. Y. U. vs. A. C. U. at Provo.
 Jan. 21—U. of U. vs. A. C. U. at Salt Lake.
 Jan. 22—L. D. S. vs. A. C. U. at Salt Lake.
 Jan. 29—U. of U. vs. L. D. S. at Salt Lake.
 Jan. 29—B. Y. C. vs. A. C. U. at Logan.
 Feb. 4—B. Y. U. vs. L. D. S. at Provo.
 Feb. 4—B. Y. C. vs. U. of U. at Logan.
 Feb. 5—A. C. U. vs. U. of U. at Logan.
 Feb. 11—U. of U. vs. B. Y. U. at Salt Lake.
 Feb. 11—A. C. U. vs. B. Y. C. at Logan.
 Feb. 12—L. D. S. vs. B. Y. U. at Salt Lake.
 Feb. 17—L. D. S. vs. B. Y. C. at Salt Lake.
 Feb. 18—U. of U. vs. B. Y. C. at Salt Lake.
 Feb. 19—B. Y. U. vs. B. Y. C. at Provo.
 Feb. 25—B. Y. U. vs. U. of U. at Provo.
 Feb. 25—L. D. S. vs. A. C. U. at Logan.
 Feb. 26—L. D. S. vs. B. Y. C. at Logan.

Dr. Widtsoe spent part of the vacation in Idaho.

Mr. F.: You are prosecuted if you do not come to school and persecuted if you do.

Miss Huntsman, after explaining the correct use of prosecute and persecute: Will any one volunteer to use these two words correctly in a sentence?

The Library is in receipt of a series of cards from Maj. Styer illustrating scenes in and about Fort Niagra, where he is now stationed. The cards are on the magazine rack near the entrance to the library.

STUDENT BODY NOTES

At the last meeting of the executive committee the resignation of Miss Ruby Nebeker as secretary was accepted. Owing to her other duties Miss Nebeker finds it impossible to perform the work of the secretary. A vote of thanks for her services was given by the committee.

The contract for the construction of the electric A has been let to the Inter Mountain Electric Co. It is expected that the A will be finished in thirty days.

Arrangements are being made to play "Mr. Bob" in some of the outside towns.

A highschool game of basketball will be played here next Saturday with one of the Ogden or Salt Lake high schools.

The U. of U. and the B. Y. U. debaters have submitted their questions for the inter-collegiate debates. Without doubt the questions will be accepted very soon.

If you see Pres. Lloyd coming up the hill in his shirtsleeves you will know that he is only in a rush to get to use his splendid new oak desk and chair. We don't blame him.

Would it not be advisable for every one to observe the custom of turning to the RIGHT when passing a person in the halls or on the stairs?

ALUMNI NOTES

PROMOTIONS.

At a single swoop the Logan Alumni Colony has lost three of its loyal members. While we miss their genial presence we also realize that they have been promoted to spheres of greater responsibility and usefulness, and therefore extend congratulations to all three. They are Philip Vincent Cardon, '09, who is now instructor in Agriculture in the Brigham City High School; Edward H. Walters, '08, who left January 5th, for Washington, D. C., to accept a position with the Department of Agriculture in the Bureau of Chemistry; and Miss Nellie Hayball, '09, who on New Year's Day was married to Earl Bennion, '09, and now resides at Taylorsville, Salt Lake county.

WEDDING.

On December 23rd, 1909, in the Salt Lake Temple, William Lawrence Walker, '08, was married to Miss Genevieve Peterson. Mr. Walker is a graduate of the course in General Science and since graduation has been Assistant Chemist of the Experiment Station. He is the first member of the Pi Zeta Pi Fraternity to assume the role of husband and his Frat brothers entertained and were entertained right royally in his honor. During his student career he took a leading part in all college activities. He was for a number of years a member of both the Band and the Orchestra, and has the honor of having been the first president of the Student Body Organization, formed in 1907-08 and now the leading factor in the social life of the U. A. C. students.

Miss Peterson is a graduate from the B. Y. C. last June and entered the U. A. C. last October. She is best remembered by A. C. folk by her very excellent work in Clyde Fitch's play, "Girls", presented last spring by the B. Y. C.

The Alumni Association and Student Life unite in wishing Mr. and Mrs. Walker joy and prosperity unmeasurable.

SEEN IN THE CAPITAL.

Miss Inez Powell, '07, came up from Cedar City, where she is instructor in Domestic Science, to spend the holidays in Salt Lake City. We learn from a very reliable, impartial source that she

is doing most excellent work in the Branch Normal, in popularizing the practical, and theoretical, phases of house keeping. Inez was ever one of our most loyal members and she is enhancing her reputation away off in Cedar City. When our Extension Workers reached that city a short time ago they were given a hearty welcome and a most delicious banquet at her home. Three cheers for Miss Powell!!!

A. B. Olsen, '07, spent the Christmas week in Salt Lake City and attended the U. T. A., where he took part in the discussion in the Section for Commercial Teachers. He is in charge of that work in the Park City High School.

C. Larsen, '96, and J. L. Coburn, '05, respectively President and Secretary of the Alumni Association went to Salt Lake City to attend the U. T. A. The reports that both would join the great and silent fraternity of Benedicks while in the capital proved absolutely unfounded. Each one is still himself.

J. C. Hogenson, '98, read a paper before the Industrial Section of the U. T. A.

Miss Amanda Holmgren, '07, spent the vacation in Salt Lake City. The big '05 class was so well represented that they might have held a family reunion. Among the members present in the City were Ballantyne, Coburn, Pence, Taylor, Tuttle, Miss Farr and Miss Love. The report comes from Ogden that Miss Farr is doing very creditable work as head of the Department of Domestic Science and Art in the Ogden High School.

A. B. Larsen, '94, and W. D. Beers, '99, and Warren G. Swendson, '04, were all seen in Salt Lake City during the vacation. All three are engaged in practical engineering and are making great strides in their profession, carrying out a number of big projects. Messrs. Larsen and Beers are both in the U. S. Reclamation Service, the former at Provo, the latter at Spanish Fork. Mr. Swendson is associated with his brother in private work at Boise, Idaho.

ALUMNI BALL.

Every loyal alumnus will be at the Ball in the Pavilion next

THE BEST INVESTMENT ANY COW OWNER EVER MADE

That's what more than One Million Cow Owners the world over have found tee DE LAVAL CREAM SEPARATOR to be, after thirty years of separator use.

A De Laval Farm Separator costs from \$45 to \$175, according to capacity. It saves butter fat and produces a cream of superior quality over any setting system or any other separator every time it is used, —twice a day every day in the year.

It involves far less labor than any setting system, and runs easier, has greater capacity and lasts from two to ten times longer than any other separator.

That's how a DE LAVAL separator saves its cost at least the first year, and frequently in a few months, and then goes on doing so right along for an average of twenty years.

So far as other separators are concerned they leave off where the DE LAVAL PROVED DE LAVAL machines begin, and the DE LAVAL makers, with thirty years of experience in separator construction and development, have forgotten more about separators than all the others know. In fact it's what the DE LAVAL has forgotten and discarded that the others use.

That's what makes the DE LAVAL CREAM SEPARATOR the best investment any cow owner ever made, and an investment no cow owner can have sound reason for delaying to make.

And in buying a DE LAVAL machine you don't have to part with one cent until you have satisfied yourself that every word of all this is simple truth. Any desired separator information can be had of the nearest DE LAVAL agent or of the company directly.

Monday night at 8.30. Not only should you be there yourselves, but make it a point to see that your friends are there also. Invite them, re-invite them; then remind them once again. Vigilance is the price of success, and the Alumni Ball is to be a "grand success."

TO EACH MEMBER.

Dear Alumnus:

The close of the year sees also the close of an undertaking begun sometime in the remote past by the U. A. C. Alumni Association and carried on at intervals for years,—the publication of an Alumni book. After many vexatious delays the U. A. C. Graduate, Vol. I, is now before you or on the way. From the embryonic "souvenir booklet," suggested years ago, it has grown into a volume of stately dimensions. It has required a prodigious amount of time and labor to collect and abridge, or expand, the mass of material; to read proof after proof,—only to find, at the last, a sad array of typographical errors; to pacify or evade angry engravers, threatening to sue or imprison the officers of the Association.

But all this is over,—or will be as soon as you have received your copy, or copies, and have forwarded a check covering the price, to the treasurer, Mr. J. L. Coburn, U. A. C. The very limited edition,—only 300 copies, the total absence of advertising material, the high grade of paper, the expensive binding, and, above all, the profusion and the superb quality of the Manz engravings,—all these features of a well-made book have brought the price up to \$5.50 per copy. The officers of the Association, the Executive Committee and the Editor all agreed to put out an artistic de luxe volume, and to trust to the loyalty of the Alumni for the rest. May the book prove a bond of good fellowship among the members, and a closer tie between the Alumni and our Alma Mater.

P. S.—The printers and the engravers are anxious for their money. Please forward without delay, your check for \$5.50.

Now for the winter courses!

"Westy" spent part of the vacation in Clarkston, the guest of "Happy."

The Ag. Club is displaying a fine new pennant. It is dark red with rustic lettering.

Miss Ida Fredrickson says she had a most enjoyable time at Malad during vacation time.

Jean to Coburn: "Allow me to congratulate you. I always knew you'd go off and get married that way."

Evidently Miss Huntsman has made some New Year resolution. It was a pleasant surprise to see her at chapel Tuesday.

George Cole, a former A. C. student, but now a '11 of the University of Idaho, is teaching school at McCammon, Idaho, this winter.

Quite a number of copies of the spring Literary number of Student Life were not called for last year. Any student wanting one now, whether a student last year or not may procure one at room 275.

Just before Christmas was solemnized the marriage of Miss Margaret Morrell and Mr. Roy Egbert, both former A. C. students and both very loyal to their alma mater. Miss Morrell has been for years a prominent member of the Sorosis (in their notable Minstrel Show she impersonated Professor Larsen with great success), and Mr. Egbert is a former foot-ball player. Mr. and Mrs. Egbert are now residing in Salt Lake City, where Mr. Egbert is instructor at the L. D. S. High School. Student Life extends congratulations.

Logan is dry. Yes, absolutely Dry.

Bob Wrigley spent his holidays in Logan.

An Electric Joy Ride is the latest. Get a queen and try it.

Prof. Pederson's chapel talk January 4th was very much appreciated by the student body.

Street car tickets are on sale at the bookstore, six for twenty five cents, twenty four for a dollar.

Pres. Lorenzo N. Stohl of the Board of Trustees has been suffering the past two weeks from attack of pneumonia.

Mrs. Heber Phelps, formerly Inez Jones of the A. C., was seen in Montpelier, Idaho, during holidays. She was well and happy, and wished to be remembered to her many A. C. friends.

The Pi Zeta Pi Fraternity met at the Walters home Tuesday evening, to bid farewell to Ed, who left Wednesday for Washington, D. C. He has accepted a position with the U. S. Dept. of Agri., Bureau of Chemistry. Ed is one of the charter members of the Fraternity and has always been staunch and loyal. It was with feelings of regret that the fellows saw him leave. They are proud of the record he made here and wish him the same success at Washington.

Van went to Provo Wednesday, Dec. 22, 1909. He's back!

Two more literary numbers coming soon. Who will write that prize story?

Cooley spent part of the Holidays at Newton. He says he had a good time, but was glad to get back.

Owing to pressure of business Ye Editor found it impossible to leave Logan even for Christmas or New Years.

Lucille was ill for several days after Christmas. Except for this her sojourn in Brigham was much enjoyed.

Miss Kerr spent the holidays visiting with friends in Montana. It is reported that her "Steady" came back with her.

Moral: Get wise Aldous.

Student, in Zoo I. Lab., on being shown the bones of a human skeleton for the first time, exclaimed, "Are these real bones and once in a person, or were they just made?"

E. P. Hoff spent Xmas in Montpelier, Idaho. While there he saw many old A. C. students, among them were Joe and Stanley Rich, Stella Stewart, George Cole, Miss Smart and Roy Welker.

HAYBALL-BENNION WEDDING

Mr. and Mrs. Hyrum Hayball gave a large dinner and reception last Saturday evening in honor of the marriage of their daughter, Nellie and Mr. Earl Bennion of Taylorsville, who were married Saturday morning in the temple. About seventy-five guests, mostly relatives, were present, among them Mrs. Bennion and four sons from Taylorsville, Bishop and Mrs. Bennion, and Miss Ethelyn Bennion of Salt Lake, and Representative and Mrs. England of Ogden. Among the few present from outside the family were Professor and Mrs. Titus. Owing to the lateness of the train from Cache Junction three of the guests did not arrive until 11 in the evening. The happy young couple, who left yesterday for their new home in Salt Lake City, received many presents, among which were five shares of bank stock from the bride's father. Both of the young married people are graduates of the A. C. in the class of '09 and have countless friends in Logan and all through the state who wish them happiness in their new life together.—Logan Republican.

THE SCIENCE CLUB

On December fifteenth a group of Faculty members met for the purpose of organizing a club devoted to scientific research. A simple constitution was adopted which provides for meetings on

the first and third Thursdays of each month. Members of the Faculty may become regular members and Juniors and Seniors may become associate members.

At this preliminary meeting the following officers were chosen:—President, Dr. Ball; Vice President, Prof. West; Secretary and Treasurer, Prof. Evans; Executive committee, Dr. Stewart, Prof. Huntington, and Dr. Thomas.

After this routine business had been transacted Dr. Ball talked about the future of the club. He said he had always missed such an organization here, especially since he had been a member of similar clubs in other schools, and was heartily glad to assist at the beginning of the Science Club. He hoped to see all original material coming from any department of the school presented before the club; and to hear reviews of new books or essays announcing discoveries or new groupings of data in the vast realm of science. It is obvious to all now that there is great need of such a club in our midst.

Thursday, January the sixth, Prof. Parker gave an entertaining and illuminating talk on Prof. Percival Lowell's theories about life on Mars. It is commonly felt that the club has already more than justified its existence.

THE NEW FLAG

BEAUTIFUL NEW STAND
ARD TO FLOAT OVER
STUDENT BODY.

The Student Body now possesses the finest college banner ever seen in Logan. The flag measures six by nine feet and is made of

royal white and blue silk. Sewed on both sides of the white portion of the flag is a large blue "U. A. C." monogram. Fancy blue and white fringe, tassels and cord, add to the general attractiveness of the flag and the shaft is surmounted by a large solid brass eagle.

Color Manager Knapp is highly elated over the new acquisition and certainly the student body officers are to be complimented for "seeing the proposition through." The flag was obtained at actual cost through Howell Brothers.

Jas. D. Pence spent his vacation at his home in Mountain Home, Idaho.
